## TECHNICOLOR TERRIFIC!

Banish the beige and turn on the color—your sun-kissed sybarite **Jason Oliver Nixon** says that summer 2008 is all about hue, verve, and pep!

### SHELL SEEKERS

We love nothing more than spending an afternoon in Stephanie Finkelstein's lovely Southampton store, **Elegant Setting**. We wander about and finger all the merchandise, oohing and aahing over Elegant's monogrammed napkins and crystal vases from William Yeoward. Then, invariably, we purchase boxes and boxes of flora- and fauna-embazoned note cards from the Printery to scribe existential epistles. Savor these shell-encrusted lovelies with their chic cerulean border (10 handmade engraved note cards and envelopes, \$45) that we use to craft ransom letters with cutouts from this very magazine. "Dear Jamee: We hav [sic] ur [sic] dog. Bag some Benjamins at Bathing Corp. or bye-bye Beulah." *Elegant Setting, 31 Main Street, Southampton, 283-4747; theelegantsetting.com.*
